

Solar Power

Save Money - Save Energy - Save Environment

Peel and Stick Solar Power

36V and/or 48V

The Earth Care Solar Replacement Roof Kit:

1. Easy to Apply
2. Saves money on electricity
3. The payback for investing in a golf cart solar peel and stick panel can be as little as two years
4. Uses revolutionary flexible solar panels made with thin film amorphous silicon that is powerful yet light and flexible
5. Allows an individual to save more money with tax credits for purchasing solar
6. For every 1 3/4 hours the solar golf cart panel roof is charged in peak sun , it will drive one extra mile on flat terrain.
7. Can be used on a two or four seat golf cart
8. Installs in minutes on most existing golf cart tops
9. In most cases it can be applied permanently to your existing golf cart top (in cases where a replacement top is needed it is 38.2" X 48.2" and can be positioned forward to shade the windshield or back for a 4 seater golf cart
10. A charge controller regulates voltage and prevents overcharging
11. Shipping options are available through UPS
